Welcome to Modern Plastics

Joseph C. Carbone, Founder

We've been doing this for a very long time (and we're very, very good at it!) Modern Plastics started in Bridgeport, Connecticut, in June 1945 when my grandfather Joseph C. Carbone opened the then, "Modern Glass Company" – a one-man operation specializing in same-day installation of automobile window glass.

Looking for a challenging, exciting and financially rewarding career? We have sales, marketing, CNC equipment, plastics fabrication and warehouse position open.

Visit our website at modernplastics.com or e-mail me at Bing Carbone at [bcarbone @ modernplastics.com](mailto:bcarbone@modernplastics.com)

“

I manage my business. My customers run my business.”

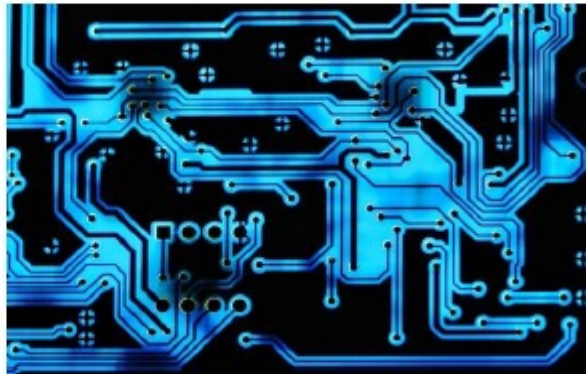

Bing J. Carbone, President

88 Long Hill Cross Road, Shelton, Connecticut 06484 USA
